

# ITWorkShop :: III , Monsoon 2008

Course Instructor : Dr. Vikram Pudi

## Written Assignment :: 1

Deadline : 21, August, 2008

**Ques:** Write 2 - 3 page write-up on JavaScript, Md5, Sha (Python Modules) and Web Services Description Language (WSDL). Don't write Syntax and all those things. Write what they are all about, how were they developed, original developers, advantages, disadvantages, uses and any other Information, which you think is useful.

### **Note ::**

1. Make sure that you don't copy the Assignment. If found so, strict action will be taken.
2. The Important thing is to attempt the problem as much as possible.
